

# FREE BONUS BLACKJACK

## DOUBLE DOWN AND SPLIT FOR FREE!

### GETTING STARTED

If you choose the Free Bonus options, the dealer will place a special 'Free Bonus' lammer next to your original wager. If you end up winning the hand, you get paid as if you had made a traditional split or double wager, even though you didn't put any additional money at risk.

### FREE SPLIT

The player may free split any pairs, except for 10-value cards. Free re-splitting is allowed. Note, the player may still split 10s, in which case they will place a new split wager in the traditional way.

### FREE DOUBLE

The player may free double with any two-card hard total of 9, 10, or 11. Free doubling after splitting is allowed when the above doubling rule is followed. Note: the player may still double other hands, in which case they do need to double their wager in the traditional way.

### DEALER 22

If the dealer busts with a point total of 22, any bets the player has left in action are pushes. The optional Dealer 22 wager wins if the dealer busts with a total of exactly 22. Pays are determined by the colors in the dealer's 22 hand. See payable for odds.

### FREEBIE WAGER

The optional Freebie Wager is resolved based on the number of "Free Bonus" lammers the player accumulates over the course of the game, through splitting and/or doubling. The more lammers you collect, the more you win! See payable for odds.

\* Note: Player Blackjacks are paid before the dealer hits out his hand, so they are exempt from the Push 22 rule. See posted paytables for all odds.

Malfunctions void all plays and pays. Bet with your head, not over it. If you or someone you know has a gambling problem and wants help, call 1-800-gambler.
